Qadir

Third World Quarterly Reader

From Modernization to Globalization, a continuing conversation

For over 35 years, Third World Quarterly has been the pre-eminent journal in the field of development studies. This Reader contains the most important and influential articles in the journal's history and provides a complete overview of the field of development studies from the original debates to current discussions on globalization and securititzation. Subjects covered include: - the Vicissitudes of Third Worldism and the Passing of National Development - neo-Liberalism and the Roots of Globalization - the Cold War and the Third World - the end of The Cold War and the Fate of the Third World - neo-Liberalism Ascendant and the Golden Age of Globalization - the Long War and the Securitization of Globalization. This is essential reading for all students and scholars of development, politics of the third world/global south, geographies of the developing world and global studies.
