Algebraic Geometry

Proceedings of the International Conference on Algebraic Geometry Held at La Rabida, Spain, January 1981

Modules holonomes a singularites regulieres et filtration de hodge.- On projections of space algebroid curves.- Moduli of algebroid plane curves.- Invariants topologiques de germes d'applications stables et finies.- Singularites isolees et sections planes de varietes determinantielles.- Singularites isolees et sections planes de varietes determinantielles.- On the topology of complex algebraic maps.- Singularites des schemas de Hilbert ponctuels.- On deformation of curves and a formula of deligne.- Droites en position generale dans l'espace projectif.- Limites d'espaces tangents et transversalite de varietes polaires.- Between equimultiplicity and normal flatness.- Liaison et residu.- Elementary transformations in the theory of algebraic vector bundles.- Déformations semiuniverselles et germes d'espaces analytiques C*-équivariantes.- A vanishing theorem for birational morphisms.- Chevalley groups over ? ((t)) and deformations of simply elliptic singularities.- On the picard group of certain smooth surfaces in weighted projective spaces.- Varietes polaires II Multiplicites polaires, sections planes, et conditions de whitney.- Regular stratifications and sufficiency of jets.
