Alice E. Smith, Editor-in-Chief

INFORMS Journal on Computing

INFORMS Journal on Computing, published quarterly, contains a wide range of papers on the broad intersection of O.R. and computing. In addition to research articles, there are special papers in a variety of formats, including feature articles on timely topics, expository and state-of-the-art reviews, and research perspectives. Specific areas of interest include: computational probability and analysis; design and analysis of algorithms; heuristic search and learning; high-performance computation; knowledge and data management; logic, optimization, and constraint programming; modeling: methods and analysis; simulation; and telecommunications and electronic commerce.
