In My Opinion gets ESL/EFL students speaking and interacting while offering teachers a fun and reliable no-prep resource for their classes. Half of 60 thought provoking topics are presented as questionnaires. The rest are questions on opinion cards asking students to take a position to be agreed with or challenged by others.

We are currently refreshing our shelves and this title is discounted! In My Opinion is an engaging, no-prep conversation resource designed to get ESL/EFL students speaking confidently, thinking critically, and interacting meaningfully with their classmates. Through 60 thought-provoking topics--half presented as small-group questionnaires and half as individual opinion cards--the book invites learners to explore real-world issues, express viewpoints, defend positions, and respond to the perspectives of others.The topics are intentionally relevant, relatable, and varied, touching on contemporary themes such as social media, dreams, immigration, privacy, smartphones, relationships, daily habits, and community values. These issues naturally spark discussion, making it easy for teachers to build full lessons or quick warm-ups that require little preparation and produce lively, authentic communication.The questionnaire format promotes collaborative exploration, as students move from question to question, sharing experiences and comparing ideas. The opinion cards shift the dynamic by inviting each student to take a stance--agree, disagree, or somewhere in between--while classmates offer supporting or opposing viewpoints. This structure not only develops fluency but also strengthens higher-order thinking skills, including interpretation, justification, and respectful debate.Accessible to intermediate through advanced learners, In My Opinion is ideal for conversation classes, speaking labs, tutoring sessions, or any setting where learners need structured but flexible opportunities to express themselves in English. Teachers appreciate its versatility; students appreciate its relevance, simplicity, and lively interaction.Features- Sixty engaging, contemporary topics that spark authentic communication and debate.- Half of the prompts presented as group questionnaires for collaborative discussion.- Half presented as individual opinion cards that require students to take a position.- Designed for no-prep use--ideal for busy teachers, conversation clubs, or last-minute speaking lessons.- Encourages critical thinking, negotiation of meaning, and respectful disagreement.- Topics include social media, privacy, smartphones, dreams, immigration, and many other high-interest themes.Download Sample Materials at https: //www.prolingualearning.com/in-my-opinion/- Table of Contents- Introduction to the Teacher- Sample: Have You Ever Questionnaire- Sample: Music Cards- Sample: Drinking Questionnaire- Sample: Drugs Cards- Sample: Movie Cards- Sample: Housework Questionnaire- Sample: Privacy QuestionnaireSimilar Pro Lingua Learning Titles- Discussion Strategies- Conversation Strategies- Conversation Inspirations- Surveys for Conversation
