Agribusiness

Agribusiness is an international agricultural economics journal publishing articles that improve our understanding of how food systems work, how they are evolving, and how public and/or private actions affect the performance of the global agro-industrial complex. The journal focuses on applying economics, marketing, management, policy and beyond analysis to the organization and performance of firms and markets in industrial food systems. Topics include supply and demand analysis, industrial organization analysis, price and trade analysis, marketing, finance, and public policy analysis.
