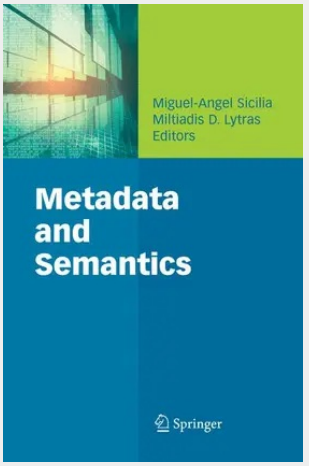
Metadata and Semantics



Metadata and Semantics is an edited volume based on the 2007 Conference on Metadata and Semantics Research (MTSR), now in its second meeting. Metadata research is a pluri-disciplinary field that encompasses all aspects of the definition, creation, assessment, management and use of metadata.

This edited volume brings together world class leaders to contribute their research and up-to-date information on metadata and semantics applied to library management, e-commerce, e-business, information science and librarianship, to name a few.

Metadata and Semantics is designed for a professional audience composed of researchers and practitioners in industry. This book is also suitable for advanced-level students in computer science, information systems and information science and librarianship.
