Bayesian Inference and Maximum Entropy Methods in Science and Engineering

25th International Workshop on Bayesian Inference and Maximum Entropy Methods in Science and Engineering

All papers were peer-reviewed. For over 25 years the MaxEnt workshops have explored Bayesian and Maximum Entropy methods in scientific, engineering, and signal processing applications. This proceedings volume covers all aspects of probabilistic inference such as techniques, applications, and foundations. Applications include physics, space science, earth science, biology, imaging, graphical models and source separation.
