Lieferfrist: bis zu 10 Tage

Advanced Computer Systems is a collection of forty selected papers presented to the Eighth International Conference on Computer Systems, October 2001 in Mielno, Poland. These papers provide a comprehensive summary of practice and research progress in information technologies:

- Recognition, Security and Safety concentrates on the widely-known problems of information systems security.
- Methods of Artificial Intelligence presents methods and algorithms which are the basics for the applications of artificial intelligence environments.
- Intelligent Agents and Distributed Activities includes laboratory research on multiagent intelligent systems as well as upon their applications in searching information, negotiating and supporting decision.
- Distributed Productions Networks and Modeling Complex Systems present production processes in distributed shared virtual environment, virtual solution of integer optimization problems, and a queuing approach to performance optimization in the distributed production network.

Artikelnummer: 9780792376514
Medium: Buch
ISBN: 978-0-7923-7651-4
Verlag: Springer US
Erscheinungstermin: 31.01.2002
Sprache(n): Englisch
Auflage: Erscheinungsjahr 2002
Serie: The Springer International Series in Engineering and Computer Science
Produktform: Gebunden
Gewicht: 1980 g
Seiten: 500
Format (B x H): 160 x 241 mm
