Springer

Rheologica Acta

The journal Rheologica Acta advances the science of rheology by publishing high quality peer reviewed articles, invited reviews and peer reviewed short communications reporting substantial progress in core areas of fluid or solid rheology. The scope of coverage includes rheometrical and rheo-physical techniques, rheo-optics, microrheology; rheology of soft matter systems including polymer melts and solutions, colloidal dispersions, cement, ceramics, glasses, gels, emulsions, surfactant systems, liquid crystals, biomaterials and food; electro and magnetorheology; theory of rheology; non-Newtonian fluid mechanics, complex fluids in microfluidic devices and flow instabilities; interfacial rheology and more.
