

Thrive in Immunology

The Thrive in Bioscience revision guides are written to help students achieve exam success in all core areas of bioscience. Each title encourages the reader to follow four steps to maximise their learning, with features to support this process. Step one: Review the facts The revision guides are designed to help learning be quick and effective:

- Information is set out in bullet points, making it easy to digest
- Clear, uncluttered illustrations illuminate what is said in the text
- Key concept panels summarise the essential learning points

Step two: Check your understanding Readers are encouraged to:

- Complete the questions at the end of chapters and online multiple-choice questions to reinforce their learning
- Use the online flashcard glossary to master the essential terms and phrases

Step three: Take note of extra advice Revision tips, and hints for getting those precious extra marks in exams, are presented throughout. Step four: Go the extra mile Readers can explore the suggestions for further reading to take their understanding one step further. Each title in the series is tailored to maximise understanding and achievement, to ensure that the reader really can thrive in their studies. They are the perfect course companions for any bioscience degree. Online Resource Centre Each title is supplemented by an Online Resource Centre which includes a flashcard glossary to enable students to test their understanding of key terminology, and a bank of interactive MCQs to give students the opportunity to check they have fully understood the facts and concepts presented in the texts.
