# Scripting for the New AV Technologies

All writers need to know how to adapt to new technology and thrive in the new opportunities that it provides. This book provides readers with the nuts-and-bolts of scripting for an array of audio-visual (AV) projects, whether it be a simple slide show,a multi-image presentation, a computer-based interactive program, or a major multi-area extravaganza. The book is very readable and would be extremely good for reference. Valerie Bragg, Principa, The City Technology College, Kinghurst, British Journalof Educational Technology, Sept. 1992. - British Journal of Education Technology, September 1992
