Calculate with Confidence

Offering a clear consistent format with a step-by-step approach to the calculation and administration of drug dosages for easy comprehension, this bestselling dosage and solutions text offers a full-color presentation of over 200 drug labels, syringes, and other illustrations that help students simulate clinical reality. The 4th edition features a reorganization of the Basic IV Calculations chapter, more content on IV push medications, new content on the latest techniques and measures being used to prevent medication errors, more realistic syringe illustrations, and new drug labels to reflect the latest drugs used on the market.
