Keltner / Steele

Psychiatric Nursing

Learn the therapeutic skills you need for your role in psychiatric nursing care! Psychiatric Nursing uses a practical, three-pronged approach to psychotherapeutic management that clearly explains how to care for patients with psychiatric disorders. It emphasizes the nurse's three primary tools: themselves, medications, and the environment. Written by Norman L. Keltner, Carol E. Bostrom, and Teena McGuinness, each an educator and advanced practice nurse, this text covers the latest trends and treatments and provides a solid, real-world foundation for the practice of safe and effective psychiatric nursing care.
