

India Migration Report 2020

Kerala Model of Migration Surveys

India Migration Report 2020 examines how migration surveys operate to collect, analyse and bring to life socio-economic issues in social science research. With a focus on the strategies and the importance of information collected by Kerala Migration Surveys since 1998, the volume: - Explores the effect of male migration on women left behind; attitudes of male migrants within households; the role of transnational migration and its effect on attitudes towards women; - Investigates consumption of remittances and their utilization; asset accumulation and changing economic statuses of households; financial inclusion of migrants and migration strategies during times of crises like the Kerala floods of 2018; - Highlights the twenty-year experience of the Kerala Migration Surveys, how its model has been adapted in various states and led to the proposed large-scale India Migration Survey; and - Explores issues of migration politics and governance, as well as return migration strategies of other countries to provide a roadmap for India. The volume will be of interest to scholars and researchers of development studies, economics, demography, sociology and social anthropology, and migration and diaspora studies.

India Migration Report 2020 examines how surveys operate to collect, analyse and bring to life socio-economic issues in social science research, with a focus on the strategies and the importance of information collected by Kerala Migration Surveys since 1998.
