Eccles

Evolution of the Brain

Creation of the Self

Sir John Eccles, a distinguished scientist and Nobel Prize winner who has devoted his scientific life to the study of the mammalian brain, tells the story of how we came to be, not only as animals at the end of the hominid evolutionary line, but also as human persons possessed of reflective consciousness.

Sir John Eccles tells the story of how we came to be, not only as animals at the end of the hominid evolutionary line, but also as humans possessed of reflective consciousness.
