Local Economic Development and the Environment

This book focuses upon the potential to integrate economic and environmental policies at the local and regional scale. Local initiatives are investigated within their wider economic and environmental policy contexts in order to illustrate both the constraints and opportunities for local policy makers. Attention is given to global economic trends, as well as to the specific policy contexts of the European Union and the national contexts of the UK, USA, Australia, Japan and Sweden. The key principles for designing integrative policies and descriptions of initiatives and projects in a variety of locations are also considered.
