

Technology, Market Structure and Internationalization

Issues and Policies for Developing Countries

Technology, Market Structure and Internationalization discusses the domestic and external factors that impinge upon the process of technological capability building in developing countries and draws policy implications. Specifically, it examines the interaction between technological effort in developing countries. Providing fresh insights, this volume will be of interest to researchers in development economics as well as to those involved with the creation of policy in developing countries.

This volume analyses the factors that contribute to the technological capability in developing countries and examines the implication these have on policy formation.
