Citizenship

This book presents a clear and comprehensive overview of citizenship, which has become one of the most important political ideas of our time. The author, an experienced textbook writer and teacher, uses a postmodern theory of citizenship to ask topical questions as: * Can citizenship exist without the nation-state? * What should the balance be between our rights and responsibilities? * Should we enjoy group as well as individual rights? * Is citizenship relevant to our private as well as our public lives? * Have processes of globalisation rendered citizenship redundant?

This book presents a clear and comprehensive overview of citizenship, exploring its historical and conceptual origins, its contemporary dilemmas and its emancipatory potential for the future.
