Shinto

At the Fountainhead of Japan

Shinto, the national indigenous religion of Japan has supplied Japan with the basic structure of its mentality and behaviour. Although its classical texts have been translated into English this volume was the first major study of this important religion. The book is a complete picture of Shinto, its history and internal organization, its gods and mythology, its temples and priests, its moral and worship. The volume also describes the metaphysics, mystic and spiritual disciplines and overall is one of the most authentic and authoritative surveys of Shinto of the twentieth century.
