

Hayter

Exploited Earth

Britain's aid and the environment

How do "types" of aid differ? Why are there different kinds? When is one more appropriate than another? How can you tell "good" aid from "bad"? Friends of the Earth commissioned Teresa Hayter, author of *Aid as Imperialism* and *Aid: Rhetoric and Reality*, to examine Britain's aid policy and practice, paying particular attention to its effects on the world's forests. In this book she describes the history of the different forms of aid and their effects. On behalf of one of the West's most effective environmental lobbies, *Exploited Earth* shows how and why British aid needs to change. Originally published in 1989
