Smith / Bebak

Creating Web Pages For Dummies

Focusing on the needs of the first-time Web page creator, this plain-English guide shows how to build a basic personal site in no time * Updated to cover the latest trends and tools, including blogs, photo-hosting sites, and Google Page Creator * Covers super-easy Web creation options (such as MySpace, Flikr, and Blogger), simple Web building alternatives (such as Google Page Creator and Yahoo! SiteBuilder), and more advanced techniques for creating robust, feature-rich pages (such as Dreamweaver and HTML coding) * The number of personal Web pages is exploding: MySpace has over 50 million registered users, Technorati has registered 23.3 million blogs, and Flickr has 2 million users who have posted more than 100 million photos
