

Profiting from Clean Energy

Praise for Profiting From Clean Energy "We are on the road to ending our reliance on oil and coal, and it's about time. Here is a book that can definitely help you profit, as we slay the dragon!" -Yale Hirsch, founder and coauthor of the Stock Trader's Almanac "An impressive, well-written resource for an investment arena destined to become vital to us. Clear, sound advice for anyone investing in new technology or growth industries. Highly recommended." -Perry Kaufman, author of New Trading Systems and Methods, Fourth Edition "Few people recognize the breadth of opportunities available in the clean energy sector. This book provides an outstanding and very informative guide for the clean energy sector, whether for pure understanding or for deciding how to invest in the sector." -Richard P. Kiphart, head of William Blair & Company's Corporate Finance Department, and Chairman of Lime Energy "The clean energy sector will be the most dynamic opportunity for investors in the next few decades, and accurate insight and information will determine investment success. Richard Asplund has provided a vital and comprehensive road map for those dedicated to leading and profiting from the disruptive shift to a vibrant clean energy economy. Smart investors should not proceed without first studying this valuable book." -Travis Bradford, author of Solar Revolution and founder of the Prometheus Institute "Bravo! Profiting from Clean Energy is destined to become the bible for clean energy investors. Richard Asplund has clearly identified the various sub-sectors and drivers and provided a clear road map for investors." -William Custer, President and CEO of Custer Capital
