

Patten

George Cruikshank

A Revaluation - Updated Edition

One of the most important British graphic artists of the nineteenth century, George Cruikshank (1792-1878) illustrated over 860 books, including several by Charles Dickens, and produced a vast number of etchings, paintings, and caricatures. The ten essays collected here first appeared in a special limited edition. In a new preface written for this paperback edition, Robert Patten shows how the insights of these seminal essays have been amplified by recent exhibitions and scholarship. The introduction by John Fowles has been retained and an index has been added. In addition to the many Cruikshank illustrations reproduced in the volume, there are original drawings by contemporary artists David Levine and Ronald Searle.
