

PLASMA 2005

International Conference on Research and Applications of Plasmas. 3rd German-Polish Conference on Plasma Diagnostics for Fusion and Applications; 5th French-Polish Seminar on Thermal Plasma in Space and Laboratory

The topic of this joint conference was research on plasma physics and its applications, with particular emphasis on research on controlled nuclear fusion. Different experiments with tokamaks, stellarators, Z-pinch and plasma focus facilities are described. Papers on low temperature plasmas produced by microwave, spark or arc-discharges, as well as on applications of thermal plasmas are also included.
