

Beard

The Experiential Learning Toolkit

Blending Practice with Concepts

The Experiential Learning Toolkit presents a diverse range of practical exercises based on the theory of experiential learning, which is concerned with learning through direct experience to create more effective, engaging and embedded learning. Author Colin Beard has compiled more than thirty internationally tried and tested learning 'experiences', which cover corporate training, individual and organizational development and education. Each experiential activity includes the essential practical information required to deliver the exercise. As well as design tips and further reading there are clear titles for each activity that highlight the underpinning core theoretical concepts. **The Experiential Learning Toolkit** includes a wide range of training needs and topics including: effective customer service training and telephone skills; outdoor learning, including service learning; negotiating and assertiveness skills; strategic and higher level thinking; effective presentation skills; developing innovative and creative minds. Trainers will find this an invaluable resource, with fresh approaches that will engage and inspire learners. **The Experiential Learning Toolkit** is a companion text to the internationally best-selling **Experiential Learning** by Colin Beard and John Wilson (also published by Kogan Page).
