Humanitarian Logistics

Meeting the Challenge of Preparing for and Responding to Disasters

In 2007, there were 34 armed conflicts worldwide. That same year, a total of 414 natural disasters affected 211 million people. Overall, these natural disasters resulted in 16,847 deaths, and caused \$74.9 billion in damages. **Humanitarian Logistics** examines the key challenges facing those whose role it is to organize and distribute resources in the most difficult of situations. This multi-contributor title includes insights from some of the world's leading experts in humanitarian logistics. It examines key issues including, warehousing, procurement and funding. With particular focus on pre-disaster preparation, rather than post-disaster assistance, **Humanitarian Logistics** provides current thinking as well as best practice for those who need to understand the many challenges and ways to respond effectively in this crucial area.
