Ask No Questions

An International Legal Analysis on Sexual Orientation Discrimination

Ask No Questions provides readers with a better understanding of Sexual Orientation Discrimination as an increasingly important area of law around the world. It aims to increase the likelihood of achieving equality at national and international levels through a focus on the impact of primary role legislation on the court process, and a discussion on the two most important trade agreements of our day - namely the North American Free Trade Agreement and the European Union Treaty - in a historical and compelling analysis of discrimination. Anne-Marie Mooney-Cotter's sixth book in her series of volumes on discrimination law follows the approach and structure of her previous Ashgate volumes. Through a focus on the comparisons and contradictions of this type of law, and its detailed examination of the relationship between sexual orientation issues and the law, the book will be of importance to those concerned with equality.

Ask No Questions provides readers with a better understanding of Sexual Orientation Discrimination as an increasingly important area of law around the world. Through a focus on the comparisons and contradictions of this type of law, and its detailed examination of the relationship between sexual orientation issues and the law, the book will be of importance to those concerned with equality.
