

Benchmark Series: Microsoft Office 365, 2019 Edition

The Benchmark Series is designed for students to develop a mastery skill level in Microsoft Word, Excel, Access, and PowerPoint. Its graduated, three-level instructional approach moves students to analyse, synthesise, and evaluate information. Multi-part, projects-based exercises build skill mastery with activities that require independent problem solving, which challenge students to execute strategies they will encounter in today's workplace. Complete course content is delivered in the Cirrus learning environment through a series of scheduled assignments that report to a grade book to track student progress and achievements.
