

Hogan / Gilbert

Basement Tectonics 12

Central North America and Other Regions

of the 1.4 Ga Granite-Rhyolite Terrane, the opening of the Cambrian Southern Oklahoma Aulacogen as evidenced by a spectacular exposure of a dike swarm, and the role of early tectonic fabrics in the development of younger structures were some of the topics of discussion. The two-day postconference field trip to the Wichita Mountains uplift, southwestern Oklahoma, U. S. A. was led by M. Charles Gilbert, and John P. Hogan. This trip highlighted the Cambrian Southern Oklahoma Aulacogen.
