Muslims and Modernity

An Introduction to the Issues and Debates

Voicing at least two Muslim opinions in each area of debate, this book challenges the idea that all Muslims think identically. While *Muslims and Modernity* is designed primarily for use as an undergraduate textbook, reference to accessible Internet material, to literature and to popular as well as scholarly sources will broaden its appeal to a general readership. This book's discussion draws on post-colonial theory, feminist analyses, anthropology, cultural and religious studies, politics and philosophy.
