Meaningful Texts

The Extraction of Semantic Information from Monolingual and Multilingual Corpora

Reflects the influence of corpus linguistics in areas such as lexicography, translation studies, genre analysis, and language teaching. This book is divided into two sections, the first on monolingual corpora and the second addressing multilingual corpora. It is of interest to academics researching the applications of corpus linguistics.

Contains papers which focus on meaning, studied not only in monolingual environments, but also contrastively in multilingual contexts.
