

Broadcasting in Canada

Broadcasting in Canada (1977) examines the unique challenges to broadcasting in the country: the size of the country, its small, dispersed population, and two official languages make radio and television coverage a difficult and costly enterprise. These conditions and pressures have led Canadians to construct a broadcasting system in which both public and private initiative have roles to play in bringing radio and television services to the community.

Broadcasting in Canada (1977) examines the unique challenges to broadcasting in the country: the size of the country, its small, dispersed population, and two official languages make radio and television coverage a difficult and costly enterprise.
