

Memory

Shaping Connections in the Arts Therapies

Memory is compilation of scholarly chapters by authors of global reputation in the arts therapies. This international publication reflects the theme of the 16th International Conference of the European Consortium for Arts Therapies (ECArTE), held in Vilnius, Lithuania. Questions of memory go to the very heart of our making sense of the world. This book brings together wide-ranging chapters, which address the question of memory, designed to stimulate understanding and debate in contemporary arts therapy education, practice and research. Writers from Canada, Estonia, Germany, Iceland, Lebanon, Lithuania, Spain, the UK and the US combine to create a topical publication, incorporating diverse and current thinking in art therapy, dance movement therapy, dramatherapy and music therapy. In this innovative compilation, authors offer different cultural perspectives on the conception of memory which informs epistemology across the field of arts therapy. This book will be of interest and relevance to those in the arts therapy community and to a broader readership, including students and professionals in the disciplines of psychology, sociology, psychotherapy, the arts, medicine, integrated health and education.

Memory is compilation of scholarly chapters by authors of global reputation in the arts therapies. This book brings together wide-ranging chapters, which address the question of memory, designed to stimulate understanding and debate in contemporary arts therapy education, practice and research.
