Dependency and Interdependency in Old Age

Theoretical Perspectives and Policy Alternatives

Originally published in 1986, *Dependency and Interdependency in Old Age* presents papers from the British Society of Gerontology annual conference in 1985. The areas covered include: the sociology of ageing, methodological issues, evaluations of service provision, ethnographies of growing old, historical studies and political perspectives on ageing. A creative dialogue between the proponents of these themes was urgently needed at the time and it was hoped that this volume would stimulate such a discussion.
