

The Dancing Body

Labour, Livelihood and Leisure

This book, with its focus on the dancing body, is the first of its kind within the larger context of dance in India. The Dancing Body is a body that exists, survives, inhabits and performs in multiple space and time, by moving, laboring, migrating and straddling across geographic, cultural and emotional borders, writing different cultural meanings at different moments of time. In India, discourses around the body in dance have long been trapped within hagiographic histories in and around dancers and their dance. During the last few decades, however, significant scholarly inroads were made into the domain of dance by shaking up the stereotypes, assertions and labels, shaped and moulded by patriarchy, class, caste and power. This book brings together emerging discourses around dance and the body that have become central in the Indian nation-state. Contemporary discourses around identity politics, moral policing, politics of exclusion, and neo-liberal dispossessions vis a vis sexual labour, means of survival, pleasure and agency of dancers have helped frame the focus around labour, leisure and livelihood concerning the everyday existence of the body in dance. This volume will be of great value to students, researchers and scholars in dance, gender studies, cultural studies, and performance studies, with a particular interest in Asian and South Asian Studies. The chapters in this book were originally published in a special issue of South Asian History and Culture.
