

Differentiating Up

How to Challenge and Motivate Highly Capable Students in Mixed Ability Classrooms

This book provides you with a variety of strategies you can immediately implement to meet the needs of your highly capable students in any classroom. Differentiating Up gives 10 proven, yet easy-to-implement strategies that make lessons more challenging for a variety of capabilities and interests. Designed to get the maximum impacts on student learning with limited resources, each strategy provides ideas for how to differentiate content, process, and product, all hallmarks of solid differentiation according to Carol Ann Tomlinson. Full of examples so that teachers can see what differentiation looks like in various subject areas in real K-12 classrooms, chapters cover topics such as assessment, depth and complexity, student choice, and more! Whether you are a teacher seeking to push highly capable students to that next level or create lessons in which students can work at their own pace and depth, this book has everything you need to create a classroom where all students can reach their full potential.
