## Feudal England

John Horace Round (1854-1928) published *Feudal England* in 1895. The volume is a collection of Round's articles on feudalism, most of which had been previously published in the *English Historical Review*. The essays cover the period 1050-1200. They are linked by Round's overarching argument that it was the Norman Conquest that transplanted feudalism to England and that during the Anglo-Saxon period England had no real feudal institutions. The volume includes Round's groundbreaking article 'The Introduction of Knight Service into England', first published in the *English Historical Review* for 1891-1892; a number of his important essays on the Domesday Book, a topic on which he was long regarded as the leading expert; and several essays challenging the historical methods of Professor Freeman, the main opponent of Round's ideas. *Feudal England* was highly influential in medieval scholarship, and is still an important resource for researchers.
