

MacBook For Dummies

Learn how to drive the coolest laptop on the planet You took the plunge, paid extra, and--even though it looks and feels like perfection--have that fleeting doubt: is my MacBook really worth the investment? You'll be pleased to know that the answer is totally yes, and MacBook For Dummies is the ultimate way to learn the thousand and one reasons why the MacBook Pro or Air you now own is a modern masterpiece--as well as the ten thousand and one (and counting) things you can do with it. With its super-smooth performance, top-shelf LED screen, rugged reliability, and powerful, trouble-free operating system, you're going to have a lot of fun. Keeping jargon to a minimum, Mark L. Chambers--prolific tech author and all-round Mac whiz--gives you a friendly, step-by-step welcome to everything MacBook, from reviewing the hardware and powering up for the first time to getting familiar with files, security settings, launching apps, and entering the digital netherworld of iCloud. Then, with the basics reassuringly in place, you can begin your journey to power-user mastery in whatever areas of MacBook-ing you're most interested in, from doing the accounts in Numbers to perfecting that soon-to-be-released cinematic classic (with original score) using iMovie and GarageBand. * Get familiar with the latest macOS, Big Sur * Communicate with Messages and FaceTime * Stream music, movies, and TV shows * Manage and edit photos and video clips Whether you're a PC convert, Mac veteran, or completely new to the astonishing potential of the MacBook world, you'll find everything you need to get the most out of the technical marvel that's now at your command.

Make MacBook magic with this updated guide! Sleek, super cool, and packed with power--that's your new MacBook. This easy-to-follow guide shows you how to take full advantage of your MacBook's features, whether you're a PC convert or a Mac veteran. You'll learn the basics, from setting up your MacBook to navigating the latest OS and downloading apps, but there's so much more--staying connected with Messages and FaceTime, working with iCloud, getting creative with iMovie, and beyond. You and your MacBook will make a great team! Inside. * Personalize the newest OS * Import files from Mac(r) or Windows(r) * Master the new Control Center * Manage your iCloud(r) storage * Connect devices to your MacBook * FaceTime with everyone you know * Troubleshoot like a pro * Get a bonus chapter at dummies.com
