

Community Economic Development

This important book examines the ways in which community economic development can contribute to local and regional regeneration. It presents a unique overview of the state of contemporary British practice in this important policy area and provides a series of fresh, theoretical, methodological and empirical insights which help us to understand ways in which communities are facing up to the challenges of devising and bringing about their own revitalisation. Community Economic Development is underpinned by the argument that much conventional regeneration work represents at best a short-term fix rather than a long-term sustainable solution to the problems of socially excluded communities. The emphasis of the book is largely on the British experience with contributions from a rich mix of new and established academics and practitioners.
