

HAPM Workmanship Checklists

The HAPM Workmanship Checklists fills an important gap in the current information provision in the industry, providing guidance for those engaged in site inspections during the course of building works. Its unique checklist format, designed for use on site, is complimented by extensive references to sources of guidance, standards and legislative information. This book will be of interest to building professionals involved in site inspection work, as a contractor, consultant, or third party, e.g. civil and structural engineers, project managers, clerks of works, building control officers, insurance company site inspectors, building surveyors, architects and designers.
