Studies in Public Enterprise

From Evaluation to Privatisation

First Published in 1987. This book contains studies on some important aspects of public enterprise, based on the experience of a wide spectrum of developed and developing countries. Public Enterprise and Evaluation seeks to introduce some fundamental ideas on the concept of evaluation at four levels, deals with evaluation as a system and succinctly reviews the experience of the United Kingdom, Argentina, Malaysia, Pakistan, Nepal and India. Capital Structures of Public Enterprises brings out the economic issues that are implicit in the arrangements of capitalisation in vogue in the public enterprise sector. Public Enterprise and the Public Exchequer is an in-depth analytical study of certain aspects of the budget link of public enterprises and shows how this has not yet been adequately realised. And Privatisation in the African Context deals with the concept of privatisation, now coming into prominence, and presents a non-doctrinaire review of the problems it raises.
