

Strategy-Driven Delivery

Aligning Organizations, Programs and Projects

Strategy-Driven Delivery is a practical guide for senior project, programme and strategy managers who need to close the gap between strategic intent and successful execution. Written by experienced transformation experts **Helen Winter** and **Jon Wrennall**, this book shows why strategy fails in practice and how to design programmes and operating models that ensure delivery success. It provides a clear, structured approach to aligning projects with business goals while enabling trust, accountability and effective decision-making at scale. Drawing on real-world examples across financial services, IT and software development, this book equips you to: - Design programmes aligned to strategic business outcome - Build operating models that enable effective delivery - Embed governance that supports trust and decision-making - Overcome stalled progress and delivery challenges - Apply AI and automation to modern project environments With practical frameworks and forward-looking insight, **Strategy-Driven Delivery** helps you lead complex transformation with clarity, control and measurable impact. **Themes include:** *strategy execution, programme management, transformation leadership, operating models, project governance, AI in project delivery*
