

Communities and Technologies

The book contains 24 research articles related to the emerging research field of Communities and Technologies (C&T). The papers treat subjects such as online communities, communities of practice, Community support systems, Digital Cities, regional communities and the internet, knowledge sharing and communities, civil communities, communities and education and social capital. As a result of a very quality-oriented review process, the work reflects the best of current research and practice in the field of C&T.
