The Golden Book

Philosophy of Law for Africa Creating the National State of Africa Under God The Key is the Number Seven

The Golden Book is a multi-volume in-depth study that sets forth a plan, strategies, and solutions to eradicate violations of human rights through the proposed theory of the divinity of God as the source of law distinct from religiosity. In turn, this divinity positively impacts the divinity of humanity in governmental systems, embracing the classification of law as eternal, divine, natural, and human as put forth by Thomas Aquinas. Charles Mwalimu focuses on the creation of the National State of Africa Under God (NSA) as the case study. The critical analysis seeks answers to what terms such as «A Nation Under God», «In God We Trust», and «We the People», really mean as sources of power in constitution-making.
