

Advances in Computational and Stochastic Optimization, Logic Programming, and Heuristic Search

Interfaces in Computer Science and Operations Research

Computer Science and Operations Research continue to have a synergistic relationship and this book - as a part of the - sits squarely in the center of the confluence of these two technical research communities. The research presented in the volume is evidence of the expanding frontiers of these two intersecting disciplines and provides researchers and practitioners with new work in the areas of logic programming, stochastic optimization, heuristic search and post-solution analysis for integer programs.

The chapter topics span the spectrum of application level. Some of the chapters are highly applied and others represent work in which the application potential is only beginning. In addition, each chapter contains expository material and reviews of the literature designed to enhance the participation of the reader in this expanding interface.

Computer Science and Operations Research continue to have a synergistic relationship and this book - as a part of the Operations Research and Computer Science Interface Series - sits squarely in the center of the confluence of these two technical research communities. The research presented in the volume is evidence of the expanding frontiers of these two intersecting disciplines and provides researchers and practitioners with new work in the areas of logic programming, stochastic optimization, heuristic search and post-solution analysis for integer programs. The chapter topics span the spectrum of application level. Some of the chapters are highly applied and others represent work in which the application potential is only beginning. In addition, each chapter contains expository material and reviews of the literature designed to enhance the participation of the reader in this expanding interface.

Artikelnummer: 9781441950239

Medium: Buch

ISBN: 978-1-4419-5023-9

Verlag: Springer

Erscheinungstermin: 07.12.2010

Sprache(n): Englisch

Auflage: 1. Auflage Softcover of orig. Auflage 1998

Serie: Operations Research/Computer Science Interfaces Series

Produktform: Kartoniert

Gewicht: 493 g

Seiten: 312

Format (B x H): 155 x 235 mm
