

Applied Research in Fuzzy Technology

Three years of research at the Laboratory for International Fuzzy Engineering (LIFE),
Yokohama, Japan

Fuzzy logic is 'a recent revolutionary technology' which has brought together researchers from mathematics, engineering, computer science, cognitive and behavioral sciences, etc. The work in fuzzy technology at the Laboratory for International Fuzzy Engineering (LIFE) has been specifically applied to engineering problems. This book reflects the results of the work that has been undertaken at LIFE with chapters treating the following topical areas: Decision Support Systems, Intelligent Plant Operations Support, Fuzzy Modeling and Process Control, System Design, Image Understanding, Behavior Decisions for Mobile Robots, the Fuzzy Computer, and Fuzzy Neuro Systems. The book is a thorough analysis of research which has been implemented in the areas of fuzzy engineering technology. The analysis can be used to improve these specific applications or, perhaps more importantly, to investigate more sophisticated fuzzy control applications.

Artikelnummer: 9781461361961

Medium: Buch

ISBN: 978-1-4613-6196-1

Verlag: Springer

Erscheinungstermin: 12.10.2012

Sprache(n): Englisch

Auflage: 1. Auflage 2012

Serie: International Series in Intelligent Technologies

Produktform: Kartoniert

Gewicht: 721 g

Seiten: 457

Format (B x H): 155 x 235 mm
