MRP II

Planning for Manufacturing Excellence

MRP II explores the principles of MRP II systems, and how the manufacturer can utilize and institute them effectively for maximum profit. The book will serve as a valuable professional reference for manufacturers instituting or utilizing an MRP II scheduling system. It will also be a valuable teaching tool for the 2- and 4- year college or university programs, a reference for APICS certification review, and continuing education programs. There are examples throughout, as well as extensive end-of-chapter case studies and their solutions. A glossary of terms is also included.
