

Formal Methods for Open Object-Based Distributed Systems IV

IFIP TC6/WG6.1. Fourth International Conference on Formal Methods for Open Object-Based Distributed Systems (FMOODS 2000) September 6-8, 2000, Stanford, California, USA

presents the leading edge in the fields of object-oriented programming, open distributed systems, and formal methods for object-oriented systems. With increased support within industry regarding these areas, this book captures the most up-to-date information on the subject.

Papers in this volume focus on the following specific technologies:

- components;
- mobile code;
- Java®;
- The Unified Modeling Language (UML);
- refinement of specifications;
- types and subtyping;
- temporal and probabilistic systems.

This volume comprises the proceedings of the Fourth International Workshop on Formal Methods for Open Object-Based Distributed Systems (FMOODS 2000), which was sponsored by the International Federation for Information Processing (IFIP) and held in Stanford, California, USA, in September 2000.
