

World Change-Maker

After founding the organization NGOabroad: International Careers and Volunteering, the author wrote this guidebook to help prospective and active social workers progress their careers in international development. As an international career advisor, she has witnessed the volume of individuals who ignore international opportunities because they lack knowledge of the realities on the ground or the requisite skills for global development. This skill-based practical book fills in the gaps, empowering and equipping potential international social workers. Chapters detail the common problems of global poverty and injustice and instruct on community-building methods as a means of creating lasting, sustainable change. This book is designed for those who aim to work in international social work or anyone who otherwise wants to "change the world" but doesn't know where to start. It's for those who wish to work or volunteer abroad in professions including nursing, public health, engineering, education, entrepreneurship, environmental work, women's empowerment and many more.

After directing the organization NGOabroad: International Careers and Volunteering for 20 years, the author wrote this guidebook to help both prospective and active social and humanitarian workers pursue their careers in international development. She has witnessed many individuals miss international job opportunities because they lack knowledge of the realities on the ground or the requisite skills. This practical book fills in the gaps. Chapters detail the common problems of global poverty and injustice and instruct on community-building as a means of creating lasting change. The book is designed for those who wish to work or volunteer abroad in nursing, public health, engineering, education, entrepreneurship, environmental work, women's empowerment and other fields.
