Beginning Android Wearables

With Android Wear and Google Glass SDKs

gives you the skills you need to make effective apps for Android Wear-based smartwatches, fitness bracelets, connected home wearable controllers, and Google Glass. Delight your users by giving them access to the information they'll need at the tips of their fingers.

This book is very practical and contains many examples that not only show you how to write code for Glass and Android Wear, but also demonstrate how to apply this code in the context of an app.
